**Plenary of the Intergovernmental Science-Policy
Platform on Biodiversity and Ecosystem Services****Fourth session**

Kuala Lumpur, 22–28 February 2016

Item 2 (c) of the provisional agenda*

**Organizational matters: admission of observers to the
fourth session of the Plenary of the Platform****List of participants in the first, second and third sessions of the
Plenary and admission of new observers to the fourth session****Note by the secretariat**

1. At its second session the Plenary agreed to use, at its third session, the procedures agreed upon at its first session (IPBES/1/12, para. 22). The Plenary at its third session considered a draft policy and procedures for the admission of observers (IPBES/3/13). A number of participants expressed views on the bracketed text in the draft policy and procedures, with strong views expressed relating to each of the two options. The Plenary agreed that a contact group would consider the issue of observers, with the aim of reviewing and seeking agreement on the draft procedures.
2. Subsequently the co-chair of the contact group reported that the discussions in the group had revealed that positions regarding whether the admission of observers should be effected by consensus had not changed since the second session of the Plenary. The contact group had therefore not discussed the matter at length.
3. Upon the recommendation of the contact group, the third session of the Plenary, accordingly decided that the interim procedure for the admission of observers to sessions of the Plenary, as described in paragraph 22 of the report of the first session of the Plenary and applied for its second and third sessions, would be applied for its fourth session (IPBES/3/18 para. 59).
4. Annex I to the present note sets out the list of participants in the first, second and third sessions of the Plenary. Annex II contains a list of organizations recommended by the Bureau for admission as new observers at the fourth session of the Plenary, as well as a list of applications not recommended, according to the procedure set out in paragraphs 10–13 of the draft policy and procedures for the admission of observers (IPBES/4/17). Annex III sets out the information provided by applicants in support of their applications. The information is reproduced as received, without formal editing.

* IPBES/4/1.
