EM/2019/07

Dear Friend of IPBES,

The IPBES secretariat, as part of its work on capacity-building, has launched the IPBES webinar series to provide learning resources for those involved in, or wanting to learn more about, the work of the Platform.

As part of the series, we have recorded a number of webinars presenting the key findings of the Methodological Assessment on Scenarios and Models and the four Regional Assessments. The webinars, presented by the Assessment co-chairs, are aimed at policymakers, practitioners, civil-society organisations, students and everyone else interested in learning about the Assessment findings. They have been created to familiarise audiences with the Assessment Reports and stimulate interest in accessing the Summaries for Policymakers (SPMs) and the full Assessment Reports.

The recordings of all webinars in the series are made available as a learning resource on the IPBES website: https://www.ipbes.net/webinars, and you can access the newly released webinars directly through the links below:

IPBES Regional Assessment of Africa

Accessible here: https://www.ipbes.net/ipbes-webinar-ipbes-regional-assessment-report-africa

Presenters: Emma Archer and Luthando Dziba
