**Dear Dr Anne Larigauderie,
Executive Secretary
Intergovernmental Science-Policy Platform on
Biodiversity and Ecosystem Services (IPBES)**

Hereby, as requested on your communication EM/2021/33 of 22 November 2021, I want to address the nomination of official focal points to IPBES from stakeholder organizations.

Reforestamos México, A.C. is a Mexican NGO that has been participating in the assessments' consultations carried out by IPBES, building on our knowledge and experience as practitioners on the fields of conservation and sustainable use of biodiversity and ecosystem services related to the forests. We have also found that the assessments represent a very useful and valuable source of information for our daily work. Hence, we would like to continue our engagement in the forthcoming works of IPBES and contribute to its objectives.

I would like to nominate as focal points:
