To the IPBES secretariat

Dear members of the IPBES secretariat, Biodiversity Conservation Center was appointed as a secondary focal point of IPBES with Elena Bukvareva in charge. However, for further work, we must replace the responsible person, since Elena left Russia over a year ago and has no plans to return. Therefore, we ask you to appoint Alexey Zimenko, General Director of Biodiversity Conservation Center, as the responsible person of the secondary focal point.

Sincerely,

Alexey Zimenko,
Director General
